**Budapest, 17 March 2020.**

A government decree entering into force on Tuesday 17 March prohibits foreign citizens from entering Hungary. Border control has been reinstated at Budapest Airport from today, whereby the travel documents of all arriving passengers are checked.

Following this inspection, only Hungarian citizens are permitted to enter Hungary.

Foreign citizens are turned away by the authorities, and they must wait in the designated transit area until departure.

Budapest Airport is not closing; it will continue to welcome and launch flights.

However, only Hungarian citizens can enter Hungary from Tuesday. Anyone, Hungarians and foreigners alike, are free to depart from the airport in the coming days.

The Airport Police Directorate has reinstated border control, i.e. the passengers of all flights must have their travel documents checked at the border crossing point. In the case of families traveling together, if at least one of parties is a Hungarian citizen, the foreign family member (child, parent, grandparent, husband or wife) is permitted to enter Hungary.

In accordance with the government decree, citizens arriving from other countries and entering Hungary must undergo mandatory medical screening.

Foreign citizens who are not permitted to enter Hungary must wait in the designated transit area until departure. Budapest Airport provides blankets, food, mineral water and, upon request, face masks for such passengers waiting in the transit area.

Together with the Airport Police Directorate, Budapest Airport is prepared to implement border controls.

To ensure a seamless process, all flights will arrive at Terminal 2B going forward, where the inspection of travel documents takes place.
