In order to answer certain questions about the regulations relating to movement, in the context of the fight against the spread of the Covid-19 virus, you will be kind enough to take note of the following answers:

- As part of the closing of the external borders to the Schengen area, all foreigners nonresident in this area will be prohibited from entering.
- From Le Bourget, all foreigners wishing to leave the country will leave as long as there are planes to bring them back home.
- Crews of foreign operators will be authorized to enter the territory by derogation, so that they can take their duty rest time, and take off with their plane on their next duty.
- Communication is in progress with airline representatives to explain that planes are always allowed to land for bringing Schengen European nationals, residents and / or members of European families to Schengen territory.
- Foreigners coming to our border, and coming from a third state will be refused if they do not meet the conditions of residency.
- Foreigners coming from a third state, in transit on another third state where they are admissible will be authorized to transit.
- Foreigners with a transit or short-stay visa will not be allowed to enter Schengen territory. Only those holding a long stay visa equivalent to a residence permit will be allowed to enter.

In addition, the repatriation of French nationals must be maintained at this stage.

Finally, return ferry flights (without passenger) are naturally authorized.
